State Human and Animal Food Laboratory Professionals Curriculum Framework - July 2017

U.S. FOOD & DRUG ADMINISTRATION

Senior Administration

- Accreditation / Certification
- Advocacy
- Budget
- Change Management
- Continuity of Operations
- Facility Management
- Human Resource Management
- ISO (Section 4)
- Legislative Affairs
- Leadership / Executive Program
- Organizational Culture
- Policy Making
- Program / Grant Management
- Public Relations
- Risk Analysis (Management & Communication)
- Stakeholder Support
- Systems Analysis
- Instructor Development
- Project Management

Supervisor / Manager Program Specific

- Advanced Chemistry
- Advanced Microbiology

Supervisor / Manager

- Conflict Resolution and Mediation
- Incident Command System (ICS)
- Negotiation
- Risk Communication Introduction

Expert (Program Specific)

Certificates & Certifications

- Animal Food
- Human Food
- Shellfish
- Instrument Repair
- Laboratory Evaluation Officer
- Mentoring
- Nano-technology
- Animal Health
- Animal Food
- Human Food
- Shellfish

Expert

- Acidified Foods
- Allergens
- Evidence-Based Decision Making
- Grant Writing
- Internal Audit
- Labeling
- Measurement Uncertainty
- Method Modification / Development
- Risk Analysis
- Chemistry
- Microbiology
- Validation Methods

Mid (Program Specific)

Certificates & Certifications

- Animal Food
- Animal Health
- Dairy
- Environmental
- Human Food
- Shellfish
- Audit
- Hazardous Material Shipping
- Infectious Agent Shipping
- Waste Manage-ment
- Animal Food Safety
- Animal Health
- Food Safety
- Environ-mental Conditions
- Milk and Dairy Product Safety
- Shellfish

- Gas Chromatography - Mass Spectroscopy (GCMS)
- Inductively Coupled Plasma Mass Spectrometry (ICPMS)
- Liquid Chromatography - Mass Spectroscopy (LCMS)
- National Laboratory Networks Methods
- Radiological
- Advanced Technologies
- National Laboratory Networks Methods

Mid

- Critical Thinking
- Epidemiology, Foodborne Illness Investigation, & Response
- Evidence Management
- Regulatory Testing Methods
- Food and Feed Emergencies
- Legal Proceedings
- National Laboratory Networks
- Public Speaking
- Root Cause Analysis
- Technical Writing Skills
- Traceability

Entry (Program Specific)

Certificates & Certifications

- Animal Food — EP7
- Dairy — EP8
- Environmental — EP9
- Animal Health — EP10
- Biosafety Level 3 — EP11
- Select Agents — EP12
- Shellfish — EP13
- Animal Food Safety — EP14
- Environmental Conditions — EP15
- Dairy Product Safety — EP16

- Basic Chromatography — EP1
- Basic Separation / Extraction Techniques — EP2
- Basic Spectroscopy — EP3
- Aseptic Techniques — EP4
- Basic Foodborne Pathogens — EP5
- Microbial Testing — EP6

Entry

- Accreditation/ Certification — E1
- Basic Communication Skills — E2
- Basic Laboratory Math — E3
- Basic Laboratory Statistics — E4
- Basic Laboratory Techniques — E5
- Chain of Custody — E6
- Ethics — E7
- Incident Command Systems (ICS) — E8
- Laboratory Information Management System (LIMS) — E9
- Method Resources — E10
- Public Health Principles — E11
- Quality Management Systems — E12
- Regulatory Programs — E13
- Regulatory Sampling — E14
- Safety — E15
- Sample Handling — E16
- Waste Management — E17

Cross-cutting

- Future Leaders
- IFSS (Mid)
- IFSS (Entry) — E18
- Business Practices
- Emerging Issues / Technologies
- Required Period Training

© 2017 Last updated July 28, 2017

The Laboratory Framework is being built out through a Cooperative Agreement with FDA, AFDO, AAFCO, and APHL.
