

Biomonitoring Peer-to-Peer Exchange Program

[CLICK HERE TO APPLY!](#)

DESCRIPTION

APHL's Biomonitoring Peer-to-Peer Exchange Program is a new initiative designed to strengthen public health laboratory biomonitoring capabilities.

Through this program, Biomonitoring Program Coordinators and laboratory staff are matched for in-person peer exchanges based on their self-identified strengths and areas for growth. These exchanges are designed to:

- Share successful practices and procedures
- Address laboratory challenges collaboratively
- Build consistency and strengthen communication within the National Biomonitoring Network (NBN).

AWARD DETAILS & DEADLINE

Applications open: January 8, 2026

Application deadline: February 9, 2026

Apply here: [Online Application](#)

Selected participants will:

- Receive funding for lodging, per diem, ground transportation, and round-trip flights
- Participate in agenda development sessions for peer laboratory visits based on identified needs and strengths
- Travel to the laboratory of their peer match for a structured 2-3 day visit
- Host a structured 2-3 visit at their laboratory for their peer match
