Applicant email address:

Reason for applying to this training: (2-3 sentences):

Laboratory Director Name

Laboratory Director email

The applicant named above has applied to participate in APHL's Nextflow/nf-core Data Carpentry training. Selection will be based on applicants ability to utilize command line environments/coding languages to execute Nextflow and nf-core processes and pipelines. The workshop will take place in Madison, WI from July 28-30, and attendees will be required to travel into the area on the day of July 27th.

By signing below, you acknowledge:

I hereby declare that I approve the application for participation in the Nextflow/nf-core Data Carpentry training. I declare that the information provided on this application is correctly represented to the best of my knowledge. I understand that all, some, or none of the positions may be filled. I understand that my laboratory will receive no direct financial compensation.
