

MAKE VIRTUAL REALITY

YOUR REALITY

Transform your laboratory's training program

In partnership with the Centers for Disease Control and Prevention (CDC), the Association of Public Health Laboratories (APHL) is distributing VR headsets to clinical and public health laboratories to support your laboratory's training program.

Request your VR Headsets!

Complete the short request form by scanning the QR code or visiting bit.ly/VR4labs

VR can immerse your team in a cutting-edge laboratory experience

Say goodbye to traditional training methods and embrace the future of learning with virtual reality:

- Transform your training sessions with a state-of-the-art virtual laboratory, complete with over **50,000 square feet of space** and **100+ pieces of equipment**.
- Step into the virtual world with your colleagues through the **multiplayer lobby**, where real-time communication and interaction bring your training sessions to life.
