SPARK SOMETHING
TERRAPINN 

THE #1 EVENT FOR COMPANIES IN THE AMR SPACE

Since 2015, the World Antimicrobial Resistance Congress has attracted top thought leaders, hospitals, companies, and policymakers as the annual, go-to event in the Antimicrobial Resistance (AMR) space. We have grown into the most impactful event in advancing solutions to combat this pressing global health crisis.

Diagnostic developers, antibiotic biotechs & pharmaceutical companies, stewardship technologies, access firms, and many more, rely on our event for business development opportunities, networking and showcasing of new products and solutions.

With over 1,300+ attendees, the 2022 conference will be a must-attend for any companies looking to:

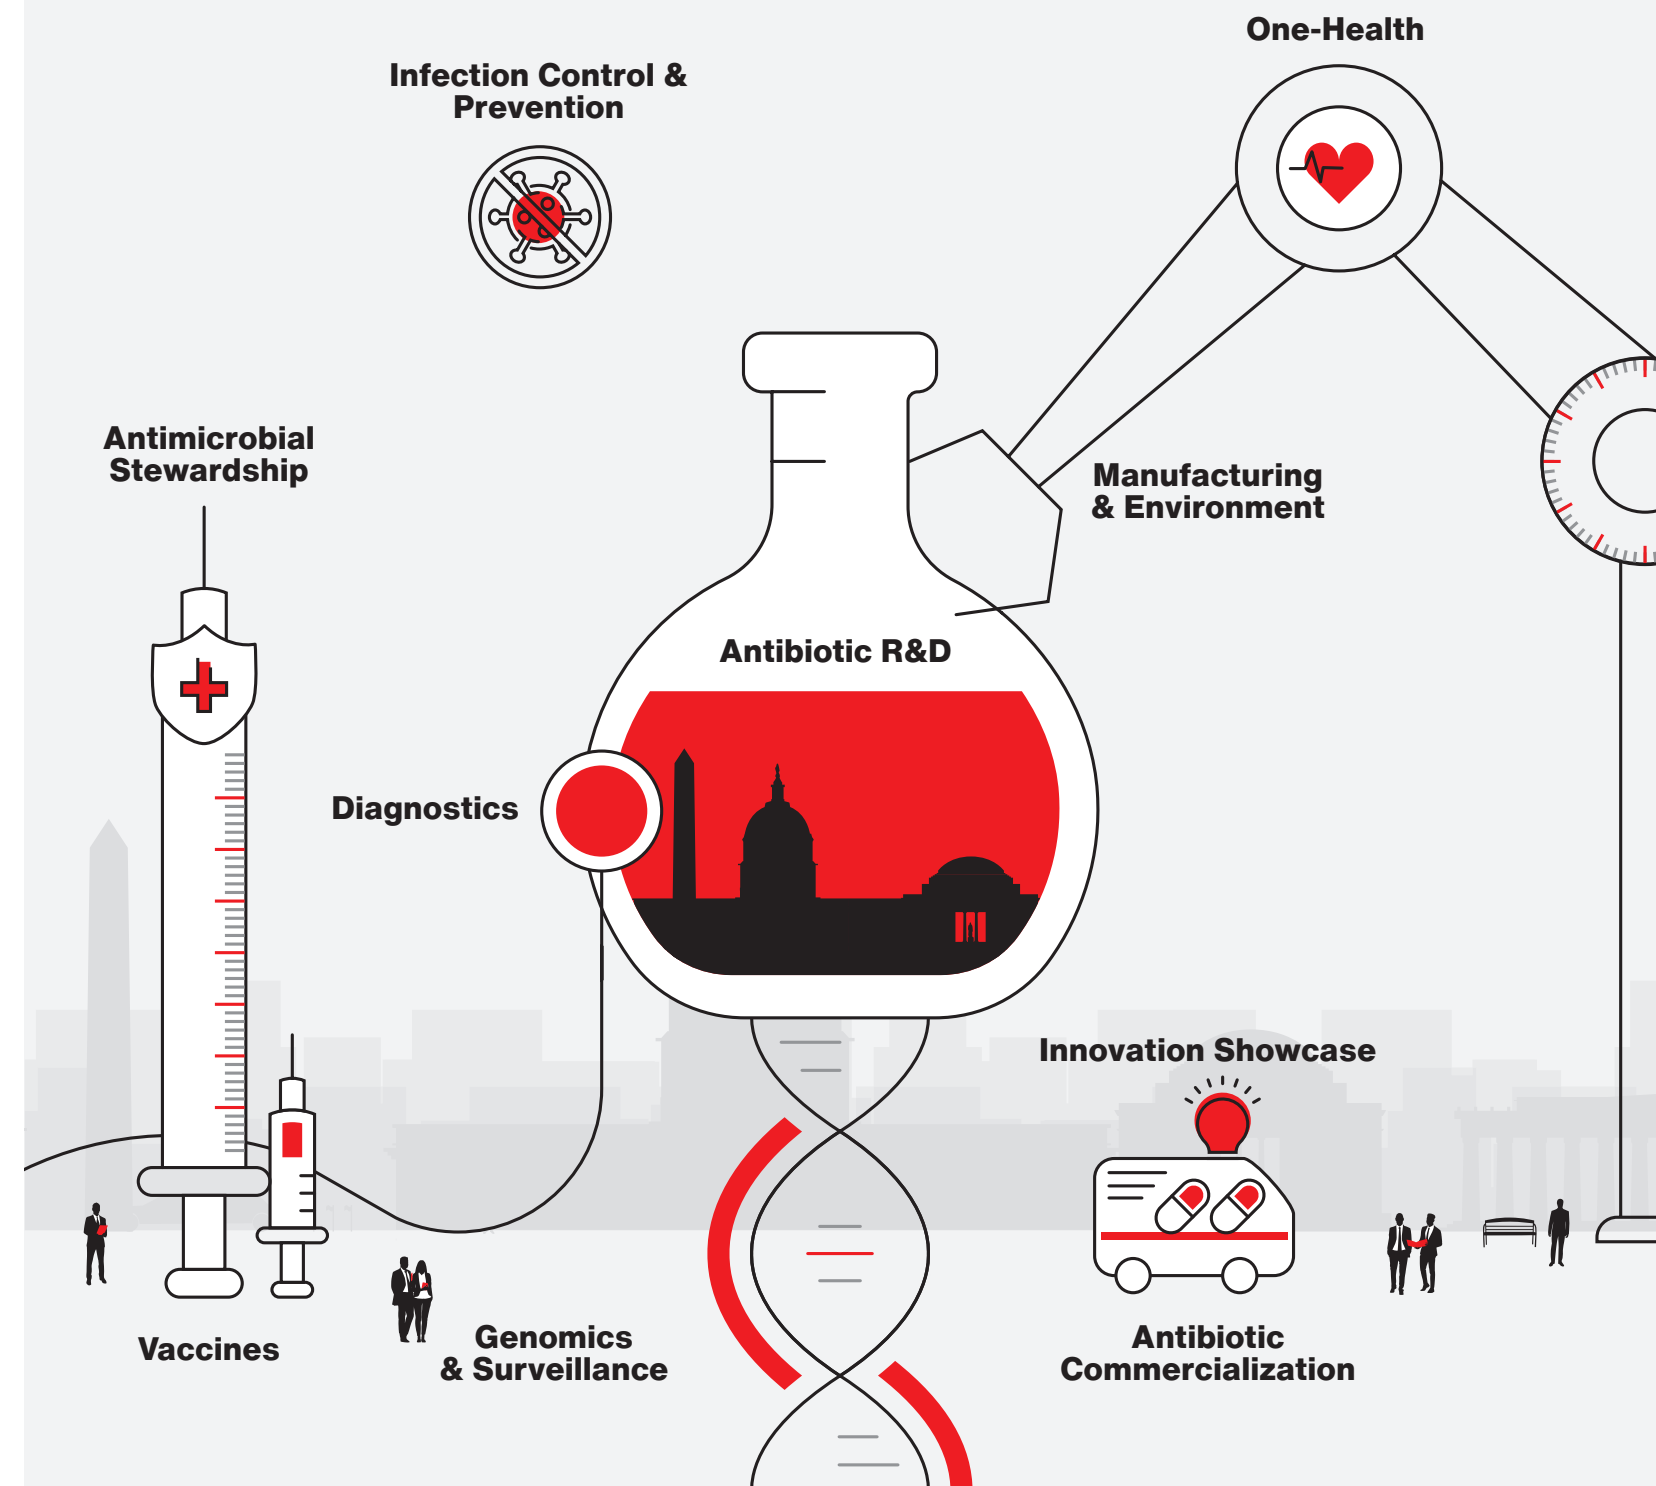

- Showcase & learn about new antibiotic and non-traditional products
- Demonstrate how new diagnostic technologies can reduce time to accurate diagnosis and support the appropriate use of antibiotics
- Meet with top hospitals from around the world
- Network with key policymakers, organizations, regulators to further AMR policies
- Interact with funding agencies, investors and venture capitalist firms
- Introduce the most innovative stewardship and infection control technologies for the hospitals
- Learn more about sustainable antibiotic manufacturing practices
- Engage in conversations around one-health and vaccines and their relationship to AMR

Join our **1,300+ attendees**, **hear from 200+ speakers**, and **meet with 100+ solution providers** on October 25-26, 2022 at the 8th annual World Anti-Microbial Resistance Congress. We will be joined by our sister conference, Disease Prevention and Control Summit America 2022, which will expand our audience onsite during the event days.

STATS & FEATURES	200	1300+	10+	60+	1000+
	Speakers	Attendees	Streams of Content	Countries	1-2-1 Meetings

Reach out to our Business Development Manager semen.sen@terrapinn to understand how you can be involved in this critical event and advance your company's mission in the AMR space.

TOPIC AREAS

Our Approach: For each key topic area, we gather the investors, innovators and policymakers who are moving the AMR space forward. As an attendee, you'll have the opportunity to engage with our top speakers through interactive panel discussions, presentations and roundtable discussions.

CALLING ALL START UPS & ACADEMICS

Do you have a new company or venture and are looking to get in front of the top companies in the AMR space?
Are you an academic or hospital practitioner looking to showcase your new study?

World AMR Congress will provide a stage for start-ups changing the future, connecting them to the world's most influential companies, investors and media.
World AMR Congress will showcase the industry's newest and brightest. Investors come to the event start-up village to find their next unicorn. Global media come to look for their next story. Companies come to look for partnerships and acquisitions.

Brand Awareness
Thousands of AMR stakeholders, from around the world, come to the World AMR Congress, giving you the platform to tell your story on a global scale.

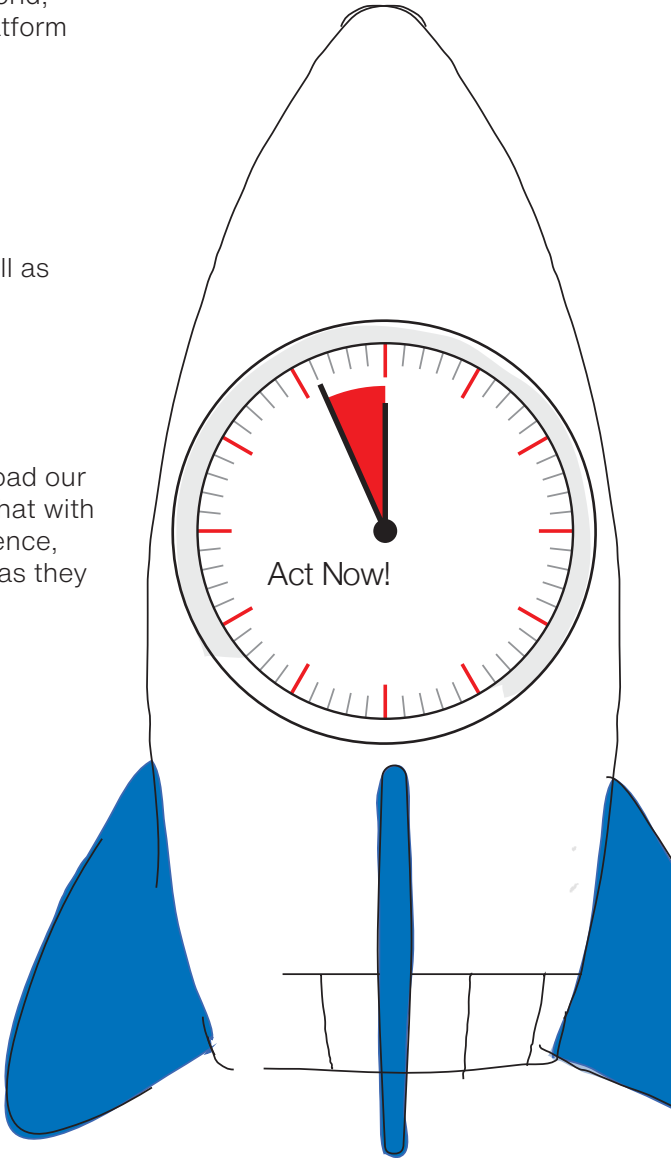

Funding
Meet VCs looking for early stage opportunities as well as companies looking for partnerships and acquisitions.

Networking
Your networking experience starts as soon as download our app — before the conference even begins, you can chat with potential leads, and arrange meetings. At the conference, you'll make some of your most valuable connections as they see your stand and demonstrations in-person.

To apply to exhibit and get your work in the right hands, reach out to Semen Sen at semen.sen@terrapinn.com.

DELIVERING TOP-TIER CONFERENCES IN THE LIFESCIENCE SPACE

CO-LOCATED WITH

DISEASE PREVENTION & CONTROL SUMMIT – AMERICA

Join us for Disease Prevention & Control Summit and get full-access to World Anti-Microbial Congress, co-located at the Grand Hyatt Washington on October 25-26. Both top tier life science events will give you additional opportunities for exposure towards your target audience.
