Public health agencies & laboratories

Dear laboratory,

We are pleased to announce that new lots of **CDC DENV-1-4 Real Time RT-PCR Assay** and **Trioplex Real Time RT-PCR Assay** kits have been manufactured and are now available for distribution. Orders received and approved on record prior to this date will be prioritized. Links are provided to access the most up to date versions of instructions for use. These documents list the validated and approved equipment, recommended commercial consumables, and ancillary reagents needed to run the tests, but not provided by the CDC.

Product name	Catalog number	Contact for ordering
DENV-1-4 Real Time RT-PCR Assay – US version (200 reactions)	KK0128	denguePCRordering@cdc.gov
DENV-1-4 Real Time RT-PCR Assay – International version (200 reactions)	KK0129	denguePCRordering@cdc.gov
Trioplex Real Time RT-PCR Assay (500 reactions) Primers and probes kit Positive controls kit	KT0166 KT0167	trioplexPCRordering@cdc.gov

To submit a new order, please contact the corresponding mailbox above. You will receive a request where you must enter information about the institution, point of contact, shipping, product requested, and assay compatibility with your laboratory equipment.

For customer service and technical support, please contact the corresponding product mailbox. These products are distributed to public health partners in limited quantities at no cost.

Cordially,

Division of Vector Borne Diseases
U.S. Centers for Disease Control and Prevention
